WHY TIMMDEK®

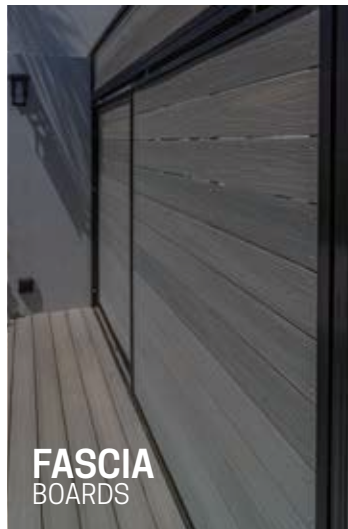

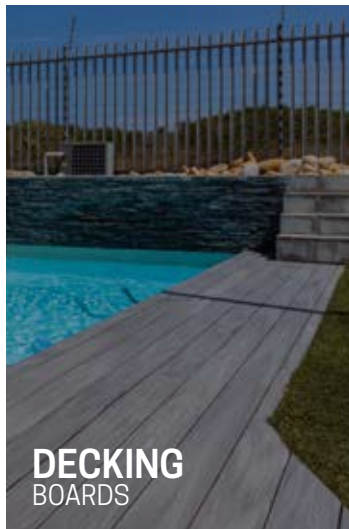

Bringing you the finest **quality** composite products. An ideal solution to suit **every** homes outdoor space.

Timmdek® has redefined the standard of excellence in the composite industry by consistently delivering innovative, durable, and sustainable products that surpass customer expectations. Our mission is to provide superior decking, cladding and pergola solutions that address the shortcomings of traditional materials while actively contributing to environmental sustainability. With a commitment to quality, sustainability, and unmatched customer service, Timmdek®'s aim is to establish itself as the industry leader, setting a new benchmark for composite materials.

Our company is characterised by a set of fundamental core values, they serve as the driving force behind our outstanding composite building materials and superior performance when compared to others in the sector. As a global brand with projects across the Middle East, Africa, Asia, America and Europe, we have offices in the Netherlands, Johannesburg & Cape Town. We also work with distributors in 10 European countries.

TIMMDEK® COMPOSITE PRODUCTS AND RANGES

At Timmdek®, we believe in putting our best foot forward with every single composite product we produce. Timmdek® was created as an answer to sub par composite products and a helpful solution to a growing environmental problem waste while offering great benefits.

THE ROCKIES COMPOSITE RANGE

COLOUR DESCRIPTION GUIDE

ASPEN

Our Aspen board is a combination of subtle greys that create a modern and sophisticated look for outdoor spaces. It's cool-toned shade features hints of blue undertones, resembling the serene and calming essence of the Aspen tree.

CEDER

Our Cedar board has a unique colour combining hues of light and dark brown tones with a subtle shade of grey streaks running along the grain patterns.

CHARCOAL

The neutral tone of the Rockies Charcoal board is rich and striking, featuring shades that evoke smooth onyx and shadowed slate, with soft hints of cool graphite and blue undertones.

TEAK

The inherent hue of the Rockies Teak board is a gentle and light, showcasing shades reminiscent of honey-gold and creamy wheat, with undertones of amber.

WALNUT

Our Walnut board has a deep, rich brown colour which is known for its warmth and sophistication. Its reddish, brown undertones distinguish it from other brown shades.

THE ALPS RANGE

REALISTIC WOOD FINISH

Dual-tone colours which adds depth and visual interest to any project. Low-maintenance composite solution that offers the look and feel of hardwood.

COLOUR DESCRIPTION GUIDE

AUTUMN MAPLE

Our Autumn Maple boards showcases a beautiful blend of rich brown tones with subtle hints of tan undertones, creating a natural and earthy ambiance.

BLACK WOOD

The dramatic tone of the Alps Black Wood board is bold and captivating, showcasing deep contrast with subtle patterns reminiscent of carbon and weathered ash, with subtle hints of rich charcoal and grey undertones.

NORWEGIAN SPRUCE

Our Norwegian Spruce boards display a stunning variety of deep brown shades that captivate the senses, embodying the timeless allure and resilience of nature.

VALLEY MIST

Our Valley Mist board displays a beautiful grey shade that captures the tranquil mist enveloping the valleys. The colour ranges from a light, silver-like grey to a slightly deeper and richer tone.

THE ANDES RANGE

OUR MOST COST-EFFECTIVE RANGE

Our most cost-effective range that has a modern, deep grooved, low-maintenance. This exceptional composite product is the result of years of experience and expertise.

COLOUR DESCRIPTION GUIDE

ASH

Our Ash-coloured boards feature an amalgamation of cool, grey, and silver hues. The shade of ash grey is deeper than the typical grey, showcasing a cool and smoky undertone

PECAN

Our Pecan-coloured board is a deep, rich brown with subtle hints of light, golden-brown. Pecan colour exudes a warm and earthy tone, capable of imparting a natural and inviting ambiance to any environment.

SANDS

Our Sand-coloured boards are typically referred to as a pale, earth-toned shade that varies from beige to a hint of golden-brown, often evoking a sense of natural beauty and tranquillity.

SNOW

Our Snow-coloured boards are typically perceived as white, but their appearance can slightly differ with undertones of grey depending on the lighting and weather conditions.
